ANIMALS - our program this week focuses on the theme of all things ANIMALS!

Reptiles

Join us for a day of exploring glorious reptiles. We'll make paperchain pythons, animal tracks with a print making experience and enjoy the original Jungle Book movie from the olden days (1967!)

"Slither, slidery, scaly old snake,

Surely your body must be a mistake.

Your eyes, mouth and tongue wisely stay on your head.

It seems that your body is all tail instead.

You gobble your dinner, you swallow it whole—a mouse or a frog or a turtle or mole.

Ugh!

Why don't you eat ice cream or chocolatey cake!

Oh, slithery, slidery, scaly old snake."

Have you ever made a Balloon Submarine? Well, today's the day! But why stop there, explore other materials to waterproof your creation. If you were making the paper planes and boats yesterday, use today to make them even better—show your friends what you learnt! We're going to get really creative today pushing our skills to the limit and exploring different terrains for our vehicles!

Toy Boat

Say "TOY BOAT" a bunch of times in a row. Bet you can only say it a few, the number will be low.

A tongue twister for sure
Be surprised more than four
You'll be tied up in knots, but
hopefully it won't show
